ABSTRACT

A series of data tables are presented, showing results from a follow-up study of 1981-82 graduates from St. Louis Community College at Forest Park and contrasting findings with data from previous studies where possible. Annual studies have been completed at the college for 6 years to obtain information on graduates' educational and employment status, their reactions to the college's educational and guidance programs, and their suggestions for improvements in programs and services. Introductory material describes the study methodology, indicating that there was a 72% response rate to a mailed survey of 720 transfer and career program graduates. The bulk of the report consists of tables providing information on: (1) the educational and employment status of 1981-82 career and transfer program graduates 6 months after graduation by program; (2) survey response rates by program for associate in applied science, certificate of proficiency, and associate in arts recipients; (3) percentage of graduates employed in areas related to their college major by program for the years 1976-77 through 1981-82; (4) salary ranges for 1981-82 graduates by program; (5) graduate salaries for 1976-77 through 1981-82; (6) methods of obtaining employment by program; (7) the number of graduates desiring placement assistance; (8) the proportion of graduates continuing their education in the same program; (9) reasons for pursuing further education; (10) program/college evaluations; and (11) detailed results by program. The questionnaire is included. (HB)

ST. LOUIS COMMUNITY COLLEGE AT FOREST PARK

DIVISION OF COUNSELING

1981-82 GRADUATE FOLLOW-UP STUDY

PREPARED AND CONDUCTED

BY

ROGER L. NIENKAMP
COORDINATOR FOR FULL-TIME
AND GRADUATE PLACEMENT

JULY 1983

COMMENTS

The 1981-82 graduate follow-up study provides information pertaining to five hundred and sixteen (516) graduates of the Forest Park Campus. This information should be of value to the Forest Park Campus Community in at least two ways:

-to assist in the review of various instructional programs

and

-to provide information to be used in the educational/career counseling of students.

Surveys such as the graduate follow-up survey are designed to provide information concerning the raison d' etre of any institution of higher learning - ITS STUDENTS - who ultimately become its graduates and whose successes reflect the academic excellence of the institution. We hope that the survey results as presented in this report will provide you with additional information and insights concerning those students who have successfully completed a Forest Park program.

As always, we welcome your comments and suggestions.

E. Daniel Kapraun

E. Daniel Kapraun
Director of Counseling

INTRODUCTION

PURPOSE

The culmination of the whole process of vocational guidance and vocational education comes with the placement and adjustment of individuals into desirable occupations of their own choice and for which they are trained, so as to serve the best interests of themselves and society.

Placement and adjustment, then, are the most realistic devices for measuring the effectiveness of counseling and instruction, and represent the final outcome of the entire vocational adjustment program.

Therefore, a follow-up study of all Forest Park graduates of school year 1981-82 was conducted to determine their location, employment status, post-secondary educational experiences, their reactions to the school's educational and guidance programs, and their suggestions for improvement.

PROCEDURE

The procedure or method of follow-up was undertaken by mailing a questionnaire. The graduate students were identified and a request was made of Data Processing at the Administrative Center for mailing labels. A cover letter was enclosed with the questionnaire to explain the purpose of the study. About four weeks later, the initial mailing was followed by a second follow-up letter to those individuals who did not respond to the first mailing. The second mailing was followed by a direct telephoning. (A sample of the survey form and the respective cover letters follow this introductory section.)

SCOPE

This study includes transfer programs as well as one and two-year career programs. Seven-hundred and twenty (720) graduates were surveyed. Five-hundred and sixteen (516) responses were received, including 339 received by mail, 162 by telephoning graduates, and 15 from Forest Park's job placement records. This represents a response rate of approximately seventy-two percent (72%).

SUMMARY

This is the sixth annual follow-up to be completed at Forest Park. Data obtained from previous studies is compared where possible.

November 12, 1982

Dear Member of the Class 1981-82:

Every year on behalf of St. Louis Community College at Forest Park the Job Placement Office surveys the graduating class regarding their employment status and career plans. You, as a former student, can certainly help us to evaluate our efforts of the past and to plan for the future.

All information you provide will be kept confidential, only the summary tabulation of the responses is shared with faculty and students. Because this information is most useful in the career planning of undergraduate students, we urge you to help those who are following you by completing the enclosed questionnaire.

For your convenience, we have enclosed an envelope in which you can return the questionnaire to the college. A stamp is not needed. Your cooperation is greatly needed. Thank you for your time and attention given to this matter.

In addition, former graduates are always eligible for all Placement Office services. Graduates may at any time consult our listings of job openings, schedule appointments with employers, and receive referral to positions.

Best wishes for the future.

Sincerely,

Roger L. Nienkamp

December 13, 1982

Dear Member of the Class 1981-82:

In November you were sent the enclosed survey form requesting information necessary for us to evaluate our career programs at St. Louis Community College at Forest Park.

This information is vital to the future graduates of Forest Park. Your answers on the enclosed questionnaire will assist the faculty and administration not only in planning new curricula offerings, but also in improving and refining existing ones.

Your cooperation is greatly needed. We will respect the confidentiality of your answers. Please take a few minutes to complete the enclosed survey form and return it to me in the enclosed postage-free envelope. We would like to have all responses returned by December 31, 1982, so we can finalize our study.

Thank you for your cooperation.

Sincerely,

Roger L. Nienkamp

ST. LOUIS COMMUNITY COLLEGE AT FOREST PARK

1981-82 Graduate Follow-Up Survey

BACKGROUND:

1. Name _____ Student Number _____

2. Curriculum (Program) _____

3. Degree: AA_____ AAS_____ Certificate_____ Date of Graduation _____ (Mo./Yr.)

4. Current Address _____ Phone _____
(Street)

_____
(City) (State) (Zip)

CURRENT EMPLOYMENT STATUS: (For those currently employed)

5. Employment status: (Check appropriate items)

_____ Employed full-time
_____ Employed part-time
_____ In Military Service
_____ Unemployed, and seeking employment
_____ Unemployed, and not seeking employment
_____ Other _____

6. If working, please complete the following from your present job:

Name of Company or Firm _____

Address _____

Your Position (Job Title) _____

Starting Date _____ Salary (per month) _____
(Mo./Yr.)

Briefly describe your job _____

_____

7. Does the above position relate to your Forest Park degree or certificate received? Yes ____ Nc ____

8. How did you obtain your job? (Check all appropriate items)

( ) On your own
( ) Forest Park's Placement Service
( ) Instructor's Assistance
( ) Missouri Division of Employment
( ) Private Employment Agency
( ) Newspaper Want Ads
( ) Other _____

9. Is this your first job since graduation? Yes ____ No ____
(If no, please list other positions held on separate page.)

(SEE OTHER SIDE)

EDUCATIONAL STATUS: (For those currently enrolled in an educational program)

10. Are you continuing your education? Yes ____ No ____

11. If continuing your education, is it: (Check all appropriate items)

Full-time (12 or more hours)	( )	Vocational-Technical School	( )
Part-time	( )	Military Specialist School	( )
Four-Year College/University	( )	Other	( )
Two-Year College	( )		

12. Name of School _____

Program and degree being sought _____

13. Is your current school program related to your Forest Park program?
Yes ____ No ____

14. Why did you decide to gain additional education? (check one)

_____ I tried to find a job, but couldn't
_____ My career goal can only be attained through further education
_____ I am interested in further education for my personal growth
_____ Not certain
_____ Other

EVALUATION: (For all graduates)

15. If you had it to do all over again, would you: (check one)

_____ Take the same major
_____ Take another major
_____ Take a liberal arts major, but add job preparation
_____ Take a more job-oriented major

16. Which of the following do you think would have benefited you in your transition from college to work? (check as many as apply)

_____ Help in job search methods
_____ Help in choosing a career field
_____ Preparation for a career field
_____ Help in adjusting to the non-academic world
_____ Other _____

17. Any comments or advice for today's students?

_____

_____

_____

18. Do you need employment assistance at the present time? Yes ____ No ____
If your answer is yes, contact:

COMMENTS AND ADVICE

FROM 1981-82 GRADUATES

FOR TODAY'S STUDENTS

CAREER PROGRAMS - Associate in Applied Science

COMMENTS AND ADVICE

ADMINISTRATIVE MEDICAL ASSISTANT

- I think students today should try to find a major they want to pursue while they are in high school. That way when they do get in college, they will know exactly what the classes are and what it will take to get a degree in that field. Too many people go to college just to be going and don't care what kind of degree they obtain.

ADVERTISING DESIGN AND COMMERCIAL ART

- Stick with it. Today's economy is where it's at. Try to be trained for today's world.

- Don't expect it to be easy to find a job right after graduation, because it isn't.

BIOMEDICAL ENGINEERING TECHNOLOGY

- Find out what your interests and capabilities are and set a goal. Work and study diligently to attain these goals. Treat school as a job and devote your time to it.

- Work hard in school because in the long-run, it is worth all the effort.

- Look into the field and see what jobs will be available in the future. Take a major that can put you into more than one type of job.

- If you're thinking of transferring, take those hours that transfer.

BUILDING INSPECTION AND CODE ENFORCEMENT

- Graduate and have plenty of patience.

- Never stop furthering your education.

- How can we convince a kid that elementary education is very important? The three "Rs", Reading, Writing and Mathematics.

CHILD CARE ASSISTANT

- That they choose a career that they like and they feel comfortable with.

CHILD DEVELOPMENT ASSOCIATE

- Strive to achieve for a higher education.

- Take as many transfer courses as possible. Get good career counseling. Research job availability in chosen field before final decision is made.

CLINICAL LABORATORY TECHNOLOGY

- Today's students should work in the field or at least observe it before jumping into it. My part-time hospital job while going through Forest Park greatly benefitted me.

- Full-time day positions in hospitals are earned only after working afternoon or evening shifts first. I would advise a four-year M.T. degree.

CRIMINAL JUSTICE: CORRECTIONS

- Make preparation for a career field. Ask yourself if you are really interested in that field for now and into the future. Discipline yourself not to accept anything as a mere subscitute. Then, go for it!

CRIMINAL JUSTICE: LAW ENFORCEMENT

- Get as much knowledge and school studies directly related to one chosen career field. However, seek a more broad and general field of study, so as to be flexible in today's current job market.

- Normally, an individual should have some type of ideas as to what he/she wants out of life, insofar as seeking a source of obtaining income. This probably occurs after the first year of college. A person should gear his education to meet his objective.

DATA PROCESSING

- I feel that you should keep a positive attitude as far as school is concerned, and you will go a long way.

- Put more time in studies. Read the book.

- Get into a field that will have job security.

- Work hard at what you want. Nothing comes to those who sit back and watch others work. You have to pull your own weight.

- Make as many job contacts as possible while still in school, so that finding a full-time position in your field of study will be somewhat easier.

- Take the time and effort to do the very best possible in school - keep your grade point average high - and learn a marketable skill.

- Choose the amount and kind of course work within your time and ability constraints, so that you can give adequate time to learning the material in classes. You are there to provide a service for your employer and not vice versa.

DENTAL HYGIENE

- Don't become discouraged in school because once you join your field, you'll be glad you stuck with it.

- Forest Park isn't a university or big college, yet they have an outstanding hygiene program.

- Although the program is tough at Forest Park, stick with it. It's a nice career and it's much easier once you're in private practice.

- Study hard and you'll be rewarded.

ELECTRONIC ENGINEERING TECHNOLOGY

- Start looking for a job at the beginning of the last semester.

- Be careful in accepting a job. Be sure the company is stable and that the job has a future.

- Study hard. Make good grades.

- Cultivate good interpersonal skills. In my opinion, most employers would rather have someone that's average in their work skills, but gets on well with co-workers than someone who is excellent in electronics, but can't get on well with fellow workers.

- Learn to think simply and use common sense with good judgement.

- Simply be prepared for the step into the corporate world. Be confident and proud of your training and experience. Impress and befriend your interviewer, but listen well and be attentive. Be aggressive.

- Send out many resumes with cover letters.

- Don't study and learn the material for the tests; study and learn it so that you know it where it counts - on the job.

- Never limit yourself to one field. The world is full of knowledge, find it and become versatile.

FIRE PROTECTION TECHNOLOGY

- Choose an endeavor of your liking and become educated in that field. Knowing your job is a small reward - liking your job is a large reward.

FUNERAL SERVICE EDUCATION

- Stay in school as long as possible and get as much education as you can.

HOSPITALITY RESTAURANT MANAGEMENT

- You only get out of it what you put into it.

- Try to decide your major during your first semester. Then devote your education, work and everything to it until you graduate.

HOSPITALITY RESTAURANT MANAGEMENT (cont'd)

- Don't be so lax in your studies. If you really sit down and study, you can learn ten times as much.

- I feel the most benefitting subjects to study are cost control and time management.

- Learn how to interview properly.

- Good luck.

- Enjoy school and try to take classes not only that apply to your major - spread your interests in all areas to get a feel of what you're really interested and happy with.

HUMAN SERVICES

- Work hard and believe in yourself. Don't get fed up because these days it takes an education to get what you want out of life.

- Get counseling for current job market availability today.

- In your stay at Forest Park, be sure you choose courses that will transfer, if you continue your education.

MASS COMMUNICATIONS

- More practical experience in the field the student may choose.

- Finish school knowing what you are going to do. Have some interviews before you graduate and after to get a feel for the market and its needs. Companies are very interested in graduates who are interested in them.

MECHANICAL ENGINEERING TECHNOLOGY

- Gain as much education as you can in the field you choose to enter; it is not only exciting learning but very rewarding in more ways than one.

NURSING

- Get as much education as possible as soon as possible and at all costs.

- Learn as much as you can; you need it to get advancement in any career.

- Forest Park graduates seem much better prepared and able to adjust to working conditions. Hang in there.

RADIOLOGIC TECHNOLOGY

- Be goal oriented and realistic about job opportunities in your field.
- Make sure you are entering a field or career with a good market for jobs.
- Finish whatever you start, don't quit.

RESPIRATORY THERAPY

- Enter a career oriented field and not just a general study.
- Study hard - take a diversified class load - so you know a little about a lot of things.

SECRETARIAL

- Practice being calm during an interview, and be serious about your career goal.
- Try to get into a growing and job demanding field.

CAREER PROGRAMS - Certificate of Proficiency

CHEFS & COOKS APPRENTICESHIP

- Don't go to school and quit half way through. Finish what is started. It will make you happy.

DATA PROCESSING

- Try to get as much education as possible, because you can never learn enough.

- Be persistent, don't undersell your experience or education, maintain your grades. I'm very pleased with the training and advice I received as a student at St. Louis Community College.

ENGINEERING DRAFTING

- Make sure if you intend to go on to a four year college that you know what transfers. Also check out that college.

FIRE PROTECTION TECHNOLOGY

- Be selective in choosing a career. Satisfaction with your work is as, if not more, important than financial or status rewards.

MEDICAL OFFICE ASSISTANT

- A special thanks to all of the hardworking teachers and counselors at Forest Park. I am grateful for their time and knowledge. All of them are super!

- Concentrate on one area and specialize in that field.

MEDICAL TRANSCRIPTION

- Get part-time employment while going to school that will give you some on the job training in your chosen field.

RESPIRATORY TECHNOLOGY

- Get the most you can out of school.

- Just like yourself and you can sell yourself for a job. Be sure of yourself and eager to learn.

- Research as many career fields as possible before acting too fast on a field you're not sure about.

- Listen, hear, understand and talk to someone about your credits before going strongly into them. Then do your best and more.

- Choose a career that's beneficial financially as well as for your pleasure.

- It is hard in the beginning to choose the right career field because only after a while, one finds out what one really likes.

RESPIRATORY TECHNOLOGY (cont'd)

- Forest Park is a good place to be.

- Work hard, it's worth it.

SURGICAL TECHNOLOGY

- Don't quit advancing your education!

- The Surgical Tech. program has started a whole new life for me. I learn something new everyday. It's a beautiful experience.

TOURISM

- I hope that the Tourism program continues and will be offered at all three schools.

- Keep in there--I have a B.S., M.A., Ph.D., and now Tourism. Never too old to learn.

TRANSFER PROGRAMS - Associate in Arts

BUSINESS ADMINISTRATION

- Stay in school and go as far as you can because there is a need for educated people.
- Coordination of education with the respective career goals is essential.
- Specialize and do your best because it will be a primary determinate in future opportunities.
- Before any student graduates, I would recommend very strongly an oral communications class.
- Take courses in more than one area of study. Because of today's very tough job market, the more versatile you are the better off you are.

ENGINEERING SCIENCE

- If you know that you want to go for it, don't lose sight of it. Do all you can.

GENERAL EDUCATION

- If they are going to transfer to a four year school, they should make sure that their courses will transfer by talking to both a counselor at Forest Park and a counselor at the school they intend to transfer to.
- It is important that the student work closely with the counselors and other staff assistants through their educational program.
- Set goals. If you can, be career oriented.
- Choose a career oriented major. Also investigate what the job market will be like in the future. Choose between what you want to do and what you have to do to make a successful living and income.

LIBERAL ARTS

- Continue to complete your educational goal. No matter, how difficult it seems.
- Students should be encouraged to work more closely with their academic advisor.
- Try to prepare yourself so you will have as many skills as possible upon graduation because jobs are very scarce.

I think Forest Park is especially good for handicapped persons. Good, well qualified and concerned instructors.

- Start early in high school to decide on a future career or occupation! Get help if undecided.

ERIC Clearinghouse for Junior Colleges JUL 20 1984
